--------------------

### How People's Participation formed :

In 2004 some social workers planned to work together to change the society in favour of the poor and deprived people. But they were so confused to decide their ideology; that time some experienced well-wishers' from some reputed NGOs from Calcutta suggests us to form an organisation to get fund from different sources' because social work or changing society is not possible through pocket money; so a large group of friends were get together and formed People's Participation' in 2005 at Dankuni office with the ideology of establish Human Rights everywhere. Facilitation and working together with the communities are the model here of this organization. But slowly PP has also adopted other kind of planning to work for the poor. Service delivery model also adopted in some way to motivate the beneficiaries. Providing direct education-Vocational Training-nutrition- health facilities are also included in PP's daily activities and programme as demanding by the community beneficiaries.

### Organization Vision and Objectives:

**Who are we:** We take the opportunity to project this organization as a representative of the under privileged/weaker section of the society for their continuous up gradation in all spheres for last ten years.

All disadvantaged groups e.g. women, children, aged and others irrespective of their castes, creeds, colours, status etc. have the inherent capacity to take responsibility and make choices about their lives. In fact, they are able to articulate and access their rights and emerge as leaders facilitating positive social change. *People's Participation (PP)* sees itself as a facilitator enabling this change. It believes that access to information and knowledge about the world and the changing political, social and economic structures contribute to the target groups having greater control over their lives. A culture of silence prevents the disadvantaged groups from articulating their dreams and aspirations as well as to express the pains of violations they have experienced. People's Participation hopes to create a culture of questioning that strengthens their abilities to challenge and change the structures that keep them silent. A collaborative and collective process that connects individuals and organization with each other enhances learning in a mutually beneficial way. People's Participation aims to draw on this synergy to help reach common goals.

*People's Participation* activities spread to several Districts in West Bengal and assistant has come from the local authorities, eminent personnel

and citizens. Committed individuals from every lifestyle have chipped in. Since its inception, the goal of the *People's Participation* team has been to ensure that people gets their rights and is living in a healthy environment. Over this 8-year period, *People's Participation* has organized thousands of people in different areas to become human rights facilitators, catalyzing life style changes within their communities. *People's Participation* has developed a unique model based on Peoples' rights to participation and development wherein they act as agents of change by forming groups and spreading awareness within their localities.

As we look back on another year and reflect on achievements and obstacles, let us reiterate the key elements that make *People's Participation* unique—its replicable and strong foundation, a broad vision encompassing an inclusive geographical approach, a complete coverage, coupled with close links and co-operation with the Government.

#### **VISION of 'People's Participation' :**

We are committed to social justice, sustainable development and human rights. The right to communicate freely is a basic human right and a necessity for sustainable development. Access to information is essential to informed decision-making at all levels. We are committed to the dissemination of information and promotion of sustainable development initiatives, in response to the needs of underrepresented and marginalized sectors of society.

For bridging the data gap and improving information availability we are committed to develop and establish an ideal medium for the Participation and exchange of a trusted and accurate source of quality information.

Empowerment of the vulnerable section of the disadvantaged section; to provide basic Education, Health, Training, Recreation to the down trodden people and empowerment of women and adolescent girls of the Society. To secure "Food-Shelter- Work" for all' is our dream.

**Monitoring and evaluation:** People's Participation will commit to follow up the project from the moment work has commenced and will send monthly reports to donor agency up until its termination. In addition, the project will establish a project monitoring plan based on the project log frame for internal monitoring and evaluation purpose. The monthly activity plans will be developed from the project monitoring plan. People's Participation will develop appropriate reporting formats for collection of project information on a monthly basis. Monthly project review meetings will be organized to review the progress and these meetings will be facilitated by the Project Manager. Proceedings of each monthly review will be recorded and kept for future reference. The Secretary will undertake period monitoring visits to the project area to interact with project beneficiaries, project staff and other stakeholders on the progress.

Midterm and Impact evaluation is planned by external resource person. The evaluation will assess the impact of the project within the project framework. It will also identify the gaps and provide recommendations to be considered for similar future projects. In case, donor agency commits to undertake the external evaluation of the project, then the project will reconsider the budget for the evaluation activity. However, People's Participation will appreciate communication in this regard.
